

# Vacuum Packaging Machine

## Equipment /Instrument Details

**Make** : Roscher

**Model** : VM-19/S/CL

### Important features

Used to pack different foodstuffs such as meat, sausages, paneer, cheeses etc. The packaging is absolutely hygienic and special film which resists temperatures above 120 °C even permits objects already packed to sterilize.

## Specifications

Capacity to pack 3 packets per batch, easy to handle and hassles (Max. Vacuum Pressure 1 bar.)

## Usages

For packaging of food products

## Working Principles

The vacuum bag that contains the product is positioned in the vacuum chamber and the open side of the bag lies across the silicon rubber strip. Once the lid is being closed, the vacuum packaging machine automatically carries out the vacuum processes.

## Application

For development of restructured meat products

## Suggested charges including GST

S.No.	Type of Analysis	Industry	University	ICAR Institutes	Other	Unit
1	NA (Packaging)	Rs. 25	Rs. 15	Rs. 10	Rs. 20	Per packet
